

Education Affiliates

DigiLearn Affiliate Programs for Law Schools and Universities

DigiLearn is partnering with leading Law Schools and Universities to extend and expand education and training programs for law students and practicing attorneys nationwide. Our high quality online courses complement traditional CLE options, and our multi-level Affiliate Program accommodates the unique requirements and individual needs of our many program partners. The Education Affiliates program is designed to augment and extend your ability to provide the highest quality content anytime, anywhere. And DigiLearn manages the process for obtaining accreditation nationwide.

DigiLearn will convert existing programs for delivery through our leading-edge Learning Management System or work with content authors to develop new training directly to the online environment. DigiLearn does not require exclusivity from content providers and affiliates, and all partners retain intellectual property rights to their material.

Working with DigiLearn gives you the ability to leverage next-generation technology and delivery infrastructure for online learning. Our leading-edge Learning Management System supports the effective delivery of text-only content, streaming audio and video, interactive learning and downloadable support materials. Our proprietary technology is flexible and scalable and designed to deliver today's content and tomorrow's vision of modular, customized, just-in-time learning.

Level 2: Delivery Partners

DigiLearn and its Delivery Partners jointly offer and co-market specific Partner courseware delivered through DigiLearn's online Learning Management System. For Delivery Partners, all courses are available at no cost to registered students. Royalties are paid to the Partner on each paid registration for the eligible courses.

Level 1: Professional Partners

DigiLearn will convert existing Partner courses and content into online courseware and deliver them through our leading-edge Learning Management System. Royalties are paid to the Partner on each paid registration for Partner-authored courses.
